Wednesdays 8.50am

We are safe, respectful, responsible learners.

“Preparing Today for Life Tomorrow”

We are only in Week 3 yet we already have much to celebrate. As you would be aware we have added a fourth value to our school this year; that of being a learner. This supports our priorities of Curriculum and Engagement that you can see on our letterhead. I can say proudly that students are living up to this value with great work being done in classes. I have attached pictures of some of the resources students are using to support their learning, as our teachers provide a great environment for student success (*this is towards the end of the newsletter*).

This week we held our Meet and Greet for new parents and carers and for those established members of the community who wished to reconnect or meet new teachers. It was truly pleasing to see many of our community support this event. Thank you to the willing band of workers who cooked sausages and provided tea and coffee.

At our recent P and C meeting, final plans for the year were tabled and endorsed. I ask any new parents and carers who wish to support the school to attend the next meeting to be held on Wednesday March 8 2023 at 3.00pm.

Students and staff are really enjoying the Resilience Project and the associated priorities of Gratefulness, Empathy and Mindfulness. Please discuss this great program with your children and take the opportunity to access parent resources and age-specific resources. These are available on the parent welcome letter you received in week 1 and at [TRP@HOME](#).

Next week we start afterschool sport. Much work occurs behind the scenes to create this opportunity for high school students. Please ensure forms are returned this week so we can submit the teams for the competition. We cannot accept verbal consent for your child to participate.

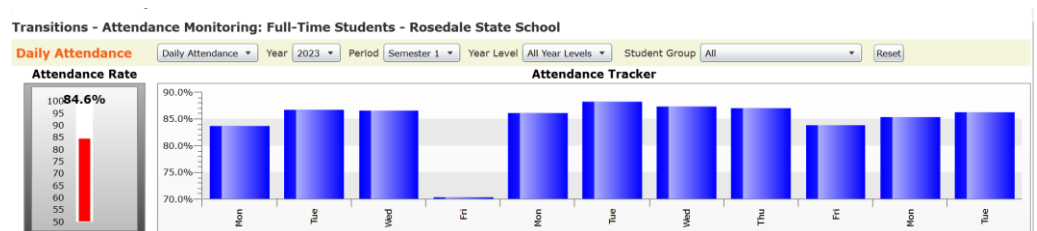

TAFE has already commenced and students will travel to Bundaberg by bus. At this stage we are committing to 3 days where students access additional programs at TAFE. Please ensure you speak to your children about timeliness, as delays at either end cause repercussions for many students when bus transfers home are forced to wait.

This year we are having a push on uniforms and hats. Please ensure your child has a hat. These are available for sale from the tuckshop or are included in the Primary Resource Scheme.

Like all schools at the moment, we have a few students who are vaping at school. Consequences if caught include students completing an educational course on this practice or possible suspension. Please discuss the safety concerns with your children. We appreciate your support of this agenda as we continue to provide a safe environment.

All students with the exception of the Yr 7 students should have received laptops. (We are waiting on protective cases for the Yr 7 computers). Please support the Student Resource Scheme which enables us to provide the most up to date and relevant resources possible. If you need to discuss a payment plan, please contact the office.

Our attendance goal for the year is 88%. This table shows the data for the year so far. Please contact the school if you need assistance to have your child get to school.

As you can see we are committed to our motto 'Preparing today for Life Tomorrow'

I hope everyone had a restful break, ready to tackle another big year of quality learning! I would like to take this opportunity to extend a warm welcome to our new and returning students to Rosedale State School for 2023. Whether you are a new family to our school, or you are returning once again, we are excited to have you as part of our school community. I would also like to welcome our new staff: Mrs Linda Pappalado, Mrs Renee Priem (Year 6), Mrs Vashti Seymour, Mrs Kylie Terlier and Ms Darr.

This year our key focus areas for ensuring that every student is succeeding, are:

- Student Engagement through academic achievement, PBL, early intervention and monitoring of attendance.
- Capable and confident staff delivering the Australian Curriculum, and using moderation to ensure consistency of results.

At Rosedale State School, our success stems from the pride we take in everything we do. Nowhere is this more apparent than in how our students wear their uniform. Our uniform announces to the world that 'We are Rosedale!' It is a symbol of who we are, what we stand for and how we strive for excellence. As such, I appreciate the support of our parents and school community in ensuring students are dressed perfectly in their RSS uniform at all times.

This culture of pride helped to achieve outstanding QCE results for our Year 12s in 2022 with 100% of our students obtaining a certificate of education. As a school, we are very proud of these young adults!

For students in Year 7 – 12, an assessment calendar has been issued and a copy has been sent home to parents/ carers via email. Please ensure your child is well aware of their assessment and due dates this year.

As we begin Term 1, the signs RSS will have another wonderful year achieving great things are evident. As I walked around our school grounds yesterday, I was impressed to see the quality learning occurring in our classrooms. To observe this love of learning and have every student engaged in the classroom from Day 1 is outstanding. The lovely atmosphere before school, at morning tea and lunch, with students and teachers excited to see each other, is very pleasing.

RSS is truly is a wonderful place to be!

A handwritten signature in black ink, which appears to read 'M. Forsyth'. The signature is written in a cursive style.

It has been a great start to the year at Rosedale. We have a few more enrolments compared to last year and currently have just over 100 primary students in K-6.

Term Calendar – Attached is the term calendar for Term 1.

AIP - Every year schools develop an AIP (Annual Implementation Plan) that outlines what the school is focussing on for the year. This year we are focussing on building **Engagement & Curriculum** knowledge. You may have noticed the new logo that will be on most of our school documents this year. In the primary this means building **ENGAGEMENT** – by improving attendance rates, focusing on social and emotional wellbeing (through The Resilience Project), creating more learning time and creating engaging activities. We will be building our **CURRICULUM** knowledge in preparation of the Version 9 updated curriculum to be delivered next year as well as a more consistent approach to literacy (through PLD).

The Resilience Project – is an emotionally engaging program using evidence based, practical wellbeing strategies to build resilience. As part of this program, students were given journals to help teach positive mental health strategies to become happier and more resilient.

PLD – This year we are introducing a new literacy program in the primary school to enhance students' literacy skills. PLD is a program that incorporates knowledge from the education sector as well as Speech Therapists and Occupational Therapists.

Homework – Homework is designed to build good study habits and be a continuation of the students are currently doing in class. It is not meant to be difficult and should be fairly independent. Homework for this year across the primary will include aspects of PLD that students have learnt throughout the week. They will be segmenting their spelling words and reading dictation passages (for enhanced decoding and fluency). Along with PLD homework, students may be set some maths questions or other optional activities.

Leadership Induction – Last year we elected our primary student leadership team. Our 2023 School Captains are Charlotte & Malachi. Our House Captains are Clare (O'Neill), Alicia (Slater) & Xzavier (Thorpe). Last week the student leaders attended the Grip Leadership Conference in Bundaberg where they learnt leadership skills. These students (along with some other to be elected students) will make up our student council and be presented with their leadership badges next week at the Investiture Ceremony.

A handwritten signature in cursive script, appearing to read 'Latoya Larsen'.

This year, I am very excited to take on the role of Head of Senior Schooling. While this role is new for me, I have been teaching at Rosedale for the past three years. I am passionate about providing a range of options for students as they prepare for their future. Prior to becoming a teacher, I was a business owner and TAFE teacher. I am also a highly accomplished teacher, so I have a broad understanding of working life. I understand this role will have many challenges and I will need a strong solution focus.

There are many intricate rules around Senior Schooling, and we are always working hard to set students up for a strong future, whatever that may hold. So please do not hesitate to contact me about your child's progress.

In the senior schooling space, we are working on students becoming more resilient by managing their time better and compiling their gratitude journals. Research by Better Health has shown most teens only receive an average of 7 hours of sleep. However, it is recommended that teens get 10 hours of sleep a night. Sleep plays a crucial role in learning and memory consolidation. During sleep, the brain processes and integrates new information and experiences from the day, which helps to solidify memories and enhance learning. Lack of sleep can impair cognitive function, including attention, concentration, and problem-solving skills, making it harder to learn and retain new information. Therefore, getting adequate, quality sleep is essential for optimal learning and academic performance.

This term will see the start of joint school-TAFE courses in a range of areas. The Senior Schooling area has also been working on a number of joint projects to give students real-world skills for their future employment.

How you can help your child:

- Check the assessment calendar to see what assessments are coming each week
- Help your child maximise their attendance. Every day counts!
- Help support them in organising themselves to ensure they come to school ready to learn. This requires:
 - A Clean uniform
 - Enough food to keep them fuelled up for the day (or money for tuckshop)
 - Plenty of sleep

These little things may seem trivial, but they add up to Senior Schooling success. Adolescents often look all grown up but struggle with organisation and need some support, as well as needing more sleep for their considerable growth.

I look forward to a fantastic year and continuing to build on the strong foundation we have at Rosedale State School.

A handwritten signature in black ink, appearing to read 'K Nunn'.

From our Head of Junior Secondary School

Ms Margaret Sypher

Welcome to term 1 2023. My name is Margaret Sypher and I have been a teacher at Rosedale for the past 8 years.

For Semester one I have stepped into the role of Acting Head of Department for Junior Secondary while Damian Jensen spends some quality time with his partner and their new baby.

Term one has started well, with students settling into classroom routines and getting to know their new teachers. Most students have borrowed the text books they need for the term and Years 8 and 9 have received their school laptops. Please encourage your child to charge these overnight and ensure they bring them to school each day.

Please also ensure they bring their exercise books, pens, diaries, etc. so they can arrive at school organised and prepared for the day and are more likely to have successful learning experiences.

2023 also sees a change to the timing of NAPLAN. This will now be held in term one, commencing on the 15th March for students in years 3, 5, 7 & 9. More information will be shared as we get closer to commencement.

I look forward to working with our students, their families and support networks to provide the best possible outcomes for all.

A handwritten signature in black ink, appearing to read 'M Sypher'.

From our Head of Special Education

Ms Deb Flesser

Welcome back to 2023.

The Department of Education has released a new resource allocation model for students with disability, replacing the Education Adjustment Program (EAP).

The Students with disability – Reasonable adjustments resourcing (RAR) model provides additional teachers and teacher aides to help schools make reasonable adjustments for students with disability.

I'm pleased to say RAR provides resources for all disabilities including autism, intellectual disability, vision, hearing and physical impairments as well as dyslexia, Attention Deficit Hyperactivity Disorder (ADHD) and mental health conditions — based on the Nationally Consistent Collection of Data on School Students with Disability adjustment levels. This means we can receive support for students who may not have been recognised under the EAP.

RAR will also provide additional teachers and teacher aides for anticipated adjustments for Prep and other new students at our school, so students will get earlier support if they have a diagnosed disability.

Here at Rosedale, the support staff consist of Head of Special Education Services - Debra Flesser (myself); 2 support teachers – Stephanie Smith (Primary support) and Pam Smith (Junior Secondary support) and a number of experienced teacher aides. We are based in J Block.

The support teachers and teacher aides work with students and teachers across the school with academic and engagement, social emotional concerns, as well as sensory needs.

If you have any concerns with your child please feel free to contact the school.

Deb Flesser

Hi Rosedale Families

My name is Linda Pappalardo and I have returned to Rosedale as your Guidance Officer. I have three main ways of supporting students in our school:

1. Educational Counselling – developing ways to support students who find their school work too hard or too easy.
2. Personal Counselling – developing ways to support students who have things going on either at school or out of school, that are interfering with their learning
3. Career Counselling – exploring pathways to tertiary education or employment at the completion of secondary schooling.

Students are referred to the Guidance Officer in one of the following ways:

1. Teachers identify students who need support and refer to the Inclusion Team, of which I am a member.
2. Students can self-refer, by requesting an appointment through the school office.
3. The Principal and /or Deputy Principals can refer students directly.
4. Families can discuss concerns and/or request a referral through the school Administration.

I am looking forward to my next chapter at Rosedale as I work to promote Equity and Excellence for all students.

Hi, My name is Mary McMinimee (Ms Mary).

I'm very excited this year to step into the role of The Youth Support Co Ordinator, here at Rosedale State school.

I have lived in the local area for five years. I'm a lover of nature, gardening, beach and bush walking. I love dance, art and quiet time on my property. Since moving to the area and before taking up this position, I have worked at Wartburg State School as a Bush Kids Kindy Facilitator and more recently, I have worked as a Therapeutic Youth Worker and Teacher Aide in the special education department here at Rosedale.

I'm very passionate about helping children of all ages and cultures. In my role of the Youth Support Co Ordinator, I'm able to support children and their families in a variety of ways. This includes individual social and emotional support, education pathways and engagement support, peer conflict and family-based support including emergency relief support, referrals and linking families with other community support networks.

I look forward to getting to know our families as the year progresses.

Please don't hesitate to contact me through the school for any assistance you or your family may need.

Messages from the School Office

School Immunisation Program

Ozcare is providing free vaccinations for all Year 7 and Year 10 students, on Thursday 30 March 2023, as part of Queensland Health's annual School Immunisation Program. All Year 7 and Year 10 students are being offered free vaccinations as recommended on the National Immunisation Program to protect against vaccine preventable diseases. Year 7 students will be offered human papillomavirus (HPV) and diphtheria-tetanus-pertussis (whooping cough) vaccination. Year 10 students will be offered meningococcal ACWY vaccination.

Any students in Years 8 and 11 who missed out last year can also participate in the upcoming Immunisation Clinic, please contact Ozcare on 4130 8900.

The vaccinations will be conducted by a team of authorised registered nurses.

Consent packs have been sent home, please return them to the office by 17 February 2023 regardless of whether you choose yes or no. For more information about diseases, vaccines or School Immunisation Program, visit www.health.qld.gov.au/immunisation or call 13 HEALTH (13 43 25 84).

Instrumental Music Program Years 4 -12

If your child is interested in studying a musical instrument at school, please collect an Expression of Interest form from the school office.

Containers for Change

We now have a C number. This allows you to deposit containers in the school's name and funds will come directly to the school. **Please enter C10926324 to support our school fundraising.**

Student Early Departure from School

We request that all parents come to the office when collecting students early. We cannot release a student without a parent present to complete the sign out process.

Excursions

Please ensure consent forms for excursions are returned to the office by the due date to ensure your child can attend. We are no longer able to accept verbal consent from parents.

Invoices

Invoicing will be completed over the next few days. Payment can be made via the BPoint link on the invoice or at the school office. If you would like to arrange a payment plan, please contact the school office.

Welcome to Renee Priem Year 6 teacher

My name is Renee Priem and I have recently relocated to Agnes Water with my husband and two boys. My boys attend school with me at Rosedale and we have enjoyed getting to know all the new welcoming people here. We love all things sport, including NRL (Broncos all the way), touch footy, cricket, fishing, surfing and paddle boarding. On holidays our favourite thing to do is go camping, anywhere by the beach is best. One of our favourite holiday destinations is Fraser Island.

Kindy and Prep

Kindy and prep students in front of their chicken pen with their new chickens Golden, Rainbow and Glitter.

Digital Technologies

The year 7 Digital Technologies class has been studying working in teams by creating paper towers with no glue or tape.

Textiles Studies Year 8

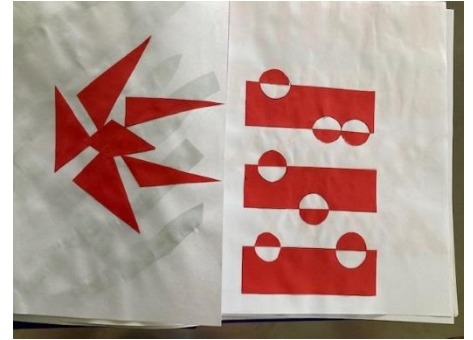

One of the Year 8 classes has been introduced to the textiles unit that they will complete this term. Students will be involved in developing a folio of samples that they will select from to complete a final design task. Ask your child if they are currently enrolled in TFF and they can tell you what they are doing.

In Term 2 the focus will be on Food and Nutrition, using a unit of work from National Curriculum.

Textiles Studies Years 10

Year 10 Textiles Studies is currently asking students to express their design ideas using geometric shapes and altering them to form new patterns. In the coming weeks they will be reintroduced to the use of sewing machines, completing a stitch sampler and then sewing a utility roll. Students will select the use of their utility roll - tools, make up, cutlery for camping or brushes/pencil. Year 10 students will continue their study of textiles into Term 2, making additional items.

Hospitality Years 11 and 12

Year 11/12 Hospitality students are returning to the basics of safety and hygiene - all students should have taken a letter home to Parents/Carers for signing. If you have not seen the letter, please contact the school, as these letters need to be signed and returned for students to participate in the 'high risk' activities. High risk includes use of electric beaters and stoves. Students will participate in some practical activities as well as the requirement to do written assessment to pass the subject.
